

Truth about Israel Zionists Khazarian Rothschild banking dynasty

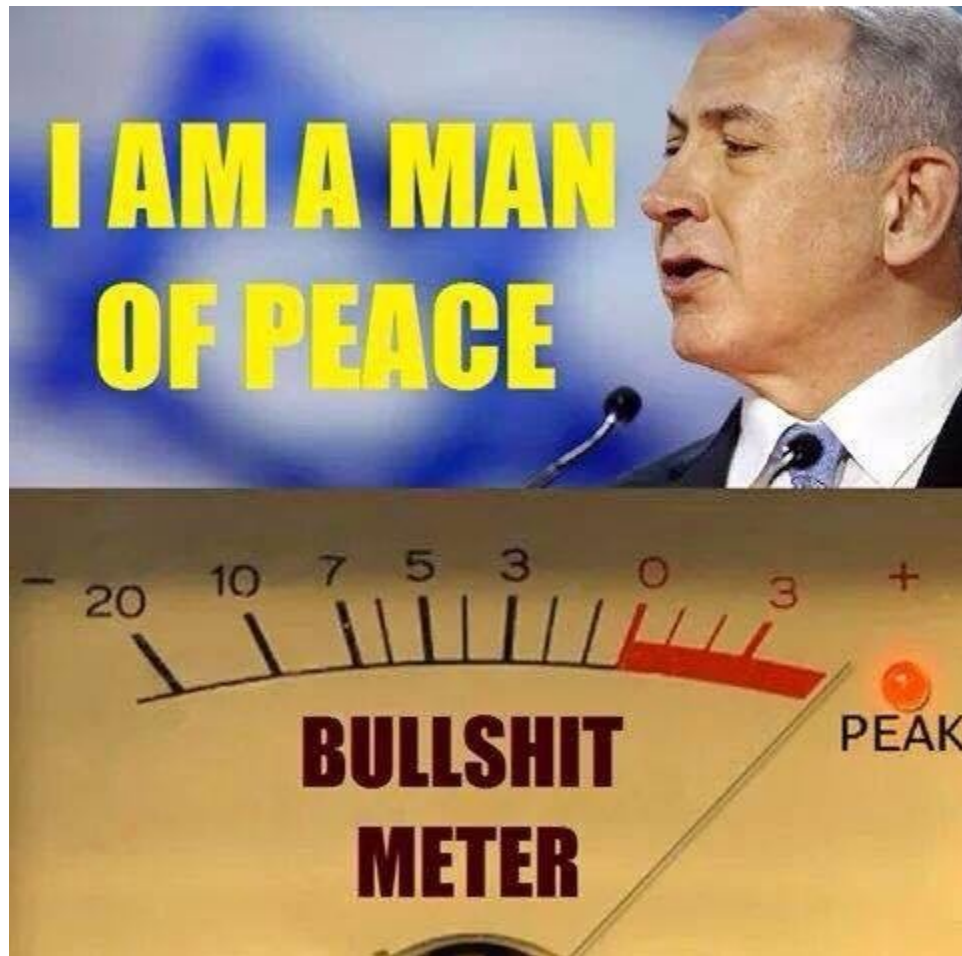

[December 7, 2017 Michael Aydinian News](#)

If only people realised just how ludicrous the accusation of being anti-Semitic is. The dawning realisation quickly reveals the ungodly level of media complicity & the fact media barons have a vested interest to keep the public oblivious. The continued success of Zionists & those wishing to establish a New World Order depends on maintaining outrageous deceptions like this. You can be sure there are a whole host of them but this one's about as gut-wrenching as it gets. The truth is, around 80% of Israelis, including each & every one of their Prime Ministers, originated from KHAZARIA. Since this region is in Eastern Europe, it remains unequivocal - these people are void of Hebrew blood & so have no ancestral rights whatsoever to any land in the Middle East.

Of course, I've lost count the number of times I've been called anti-Semitic. For me, it proves one thing - the person I'm talking to is an ignorant, brainwashed, belligerent, blithering idiot! You see, Iraqis, Syrians & Palestinians are Semites as are all folk from this particular region of the Middle East. Do I have anything against these people? Why should I? They're having the proverbial shit kicked out of them! Yet though the truth shows up this incessant bleating of anti-Semitism for what it really is - a ruse to deflect criticism by stifling discussion, if anyone mentions Israeli crimes, even though they're totally within their rights, the label anti-Semitic is sprayed around like confetti. Small wonder Israel continues to display a wanton disregard for international law.

Saying we're being taken for an almighty ride hardly cuts it. Again if only people realised just how long they've been at it & how successful they've been using this formula of deception, lies & forever making out they're the victim. As a result, they now possess unimaginable wealth & power. Like I've said a zillion times - WE'RE ALREADY OCCUPIED TERRITORIES! What people perhaps need to understand though is these Khazarian Zionists don't give a shit about Jews or anyone for that matter. In fact they're the most racist, anti-Semitic people on the planet! Crucially, what they want is total control..... everything..... & they won't stop until they get it & you better believe there's nothing they won't do to achieve this goal.

It is essential people realise all they'll ever hear from the media is lies. The truth can never come out. We're already as good as worthless to this lot. However, the one thing we still possess is 'strength in numbers' & it's this power that they ultimately want to nullify because it's the only thing standing in their way. Here are two articles pertaining to this. Thanks to Khawar Afroze Rana for this one. It's not been edited too well but basically, it says all the rights things & notably includes Benjamin Freedman's incredible speech in 1961 about the Rothschilds & the creation of Israel.

I thought I'd include this article too. It is also from Veterans Today. I must admit the title or should I say the word 'still' gave me a chuckle.

Is Netanyahu still a psychopath and pathological liar?

[Is Netanyahu still a psychopath and pathological liar?](#)

Gimme a break! It really is important for people to realise, that's all he's ever been! I particularly liked this paragraph.....

No matter how you cut it, Netanyahu lacks the moral and political backbone to be a head of a state. If the Jewish community in Iran even approves a nuclear deal, then how can Netanyahu really say that Iran has "a ruthless commitment to murder Jews"? This is one reason why Jewish scholar Norman Finkelstein calls him "[a maniac](#)."

There's always something I should have included in any post but this time around I made the glaring error of not mentioning how it was mainly Russia & Persia who for literally centuries voiced concern over the diabolical level of Khazarian criminality. They were the ones who stood up to them. So, all these years later it's hardly surprising both Russia & Iran have suffered the brunt of being labelled the bad guy by the Rothschild mass-media.

Furthermore, quite how I left these out I'll never know. I've had them for a while, specifically saved for an appropriate post. So belatedly here are two more links - a rather interesting article from Press TV & a great piece about Palestine & Zionist terrorism.
